Punjab Group of College Rawalpindi   Rawalpindi, Pakistan

EXPERIENCE

JUNIOR/ REACT JS DEVELOPER   10/2022 - Present
Ideofuzion Pvt Ltd   Bahria Phase 4
                                                Rawalpindi

- Developed innovative JavaScript web technologies to build a user-friendly, adaptive, and responsive website with improved cross-browser compatibility and optimized runtime performance.
- Spearheaded a feature development project, strengthening the company brand by creating an attractive and engaging web layout for their destination website.
- Planned and engineered RESTful web services to manipulate dynamic datasets.

FRONT-END DEVELOPER   07/2022 - 09/2022
Techozon Software House   Gulberg Green
                                                Islamabad

- Automated front-end unit and functional tests to ensure seamless updates to future versions of software releases.
- Utilized HTML5 and CSS3 technologies to design, develop, and debug seamless web applications on multiple browsers and platforms.
- Managed code repositories, review tools, and continuous integration processes to improve website analytics and end user feedback.

SKILLS

Web Application Development · React.js · Next.js · Node.js · Redux · Redux toolkit

Javascript · ES6 · Typescript · HTML5 · CSS3 · SASS · UI/UX Design

Tailwind css · Bootstrap · Responsive web design · Styled component · Figma

Version control · Github · BitBucket · Agile · Jira · Netlify · MongoDB · SDLC

Testing and Debugging · Performance Optimization · Cross-Browser Compatibility

Api integration · Restful Apis · Web 3

PROJECTS

TOTE

E-commerce platform enabling seamless transactions across different user interfaces.

- Led development of Tote eCommerce platform with three sites for users, admins, and merchants. Enabled seamless transactions, product additions, user purchases, and admin management.
- Ensured pixel-perfect UI implementation from initial design phase using Figma designs.
- Integrated ALA and OPN token payment methods for seamless transactions via Alacrity wallet.
- Collaborated on user, admin, and merchant site functionalities for smooth operations.

KWIKTRUST

File Validation System built on HyperLedger Fabric for secure project file uploads and validations.

- Took concepts and produced design mockups and prototypes to strengthen designs, enhance user experiences and improve site interactions.
- Utilized HTML, CSS, JavaScript, and React.js to create responsive UI components.
- Integrated APIs for seamless frontend-backend communication.

GAMESFI

Play-to-earn gaming platform, facilitating fun gameplay with real cryptocurrency earnings and easy cash-out.

- Implemented redeem features for users to exchange scores into BTC, ETH, SOL, SHIB, BNB.
- Facilitated cash-out options via Binance P2P and Coinbase USD formats.
- Played pivotal role from UI design to feature implementation, resolving bugs post-production.

SHETYLE

Online fashion platform in Pakistan providing a diverse range of products and prioritizing customer satisfaction.

- Worked cooperatively with client services, sales and design team in deadline-driven environment.
- Identified and resolved UI bugs during internship period, contributing to improved user experience.
- Gained practical experience in frontend development methodologies and practices.
